1. The DDA has no specific objection to the new wording proposed by the IC Staff on NSCID No. 2 and NSCID No. 8.

2. We do question, however, except for those changes required by law, whether it is wise to re-issue the NSCIDs until we are able to work out the intelligence structure as prompted by E.O. 11905. The new approach to intelligence as enumerated in the Executive Order permits a fresh approach and we possibly would be doing ourselves an injustice to hasten to re-issue the old documents governing the old way of doing business. Let's punt until we get organized.
